The essence of Billy Joel
2/29/2008 9:53pm

A pretty basic rendition of just about the greatest song ever. It's pretty darn easy until you come to the unnecessarily difficult refrain. I don't think it flowed too well there. It lacks the essential "pulse" in the left had that BJ does (3 beats in the left hand each measure). If you're familiar with "youtube", go there and look up "piano man intro". A user named pianojohn gives some FANTASTIC tutorials on how to play the real deal. Add BJ's intro to this arrangement and do some general sprucing up, and it turns into one impressive piece.

Very bad Arrangement!
11/9/2007 1:28pm

I love this song but hate this arrangement! It is really bad! Its very simple and leaves all of the good piano parts out of it. I have been finding a pattern that with all of Billy Joel's Pisces: while they sound great when played on the radio they sound horrible when played using his sheet music. If you want all of those cool sounding parts you will have to figure out them by yourself.
